Team: Tech-Phantoms
Project code: 9
Project Title: Social Networking

S. No.	Name	Roll No.
1	Varendra Maurya	200010055
2	Chinnavengannagari Vinoothna	200010009
3	Patel Shahil Manishbhai	200010039

We are living in the age of Social Networking like Facebook, LinkedIn, Google etc. In this project our main objective is to develop a social networking site. By using our site anyone can connect with their friends and create some good memories.

Features in our site which can be used by our users:

a) Register for free to use the site

b) Registered users can login into the site by providing appropriate credentials.

c) Users can get basic information of other users.

d) Registered users can add new friends.

e) Users can send text messages to their friends using chat-box.

f) Users can check whether their friends are currently active or not.

How to get into our application:

Clone our codes into your htdocs folder and you are good to go.

Entry point into to our website src/index.php

Steps to start with your account on TechSio site:

a) Use the signup option to create your new account on the site and also upload a photograph from your device as a profile photo.

Inputs required: User-name, E-Mail ID, Password, Profile photo.

b) Remember E-mail ID and password for future references.
